

E R R A T A

Michigan Health Statistics, 1972-1976
(Annual Statistical Reports)

Please replace tables titled "Fetal Deaths by Number of Prenatal Visits, Michigan Residents" with the enclosed corrected tables. The last two rows (ninth month, unknown) were transposed in the printed texts. The respective table numbers for each year are:

1972	Table 1.21
1973	Table 1.25
1974	Table 1.28
1975	Table 1.30
1976	Table 1.30

Michigan Health Statistics, 1960-1976
(Annual Statistical Reports)

Please note there are two changes in Table 3.14 (page 77) - "Divorces and Annulments by Duration of Marriage, Michigan Occurrences, 1967 and 1977" in Michigan Health Statistics, 1977: (1) durations under 6 months had previously been listed as durations under one year; (2) an explanatory footnote on method of calculation has been added. These changes apply to data on duration of marriage at time of divorce or annulment previously published in Michigan Health Statistics over the years 1960-1976. More accurate Michigan data on duration of marriage at time of divorce or annulment are available in the series of National Center for Health Statistics publications, Vital Statistics of the United States, Volume III.
